Accessible parking and assistance

Version 1.0 | Effective November 1-30, 2026 | Fictional test content

1. Spaces and eligibility

Reserved accessible spaces

Every Northgate facility has two accessible spaces, numbered 009 and 010. A valid accessible parking permit must be displayed while parked. The permit holder must be travelling in the booked vehicle as driver or passenger.

Vehicle dimensions

Accessible spaces accept vehicles up to 5.0 m long, 2.1 m wide and 2.0 m high, with maximum gross mass 3,500 kg. Width includes mirrors and height includes roof attachments. A high-roof wheelchair vehicle may exceed the height limit; confirm suitability before booking.

Rates

Accessible spaces use the standard rate: CTR PLN 8.00, RIV PLN 6.00, STA PLN 7.00, AIR PLN 5.00 per hour. There is no accessible-space surcharge or automatic free parking entitlement in this mock service.

Accessible parking and assistance

Version 1.0 | Effective November 1-30, 2026 | Fictional test content

2. Site access and assistance

Transfer aisles and paths

Marked side transfer aisles must remain empty. Each site has a step-free pedestrian route from its accessible spaces to the pedestrian exit. Do not leave luggage, cables or scooters in the aisle. The facility guides identify local pedestrian connections.

Requesting assistance

Contact help@northgate.example before the visit with the facility, planned interval and practical access requirement. You do not need to send medical records or a diagnosis. Support can explain routes and entry steps but does not provide lifting or personal care.

Entrance difficulty

If the barrier reader is difficult to reach, use the entrance intercom for assistance. Keep the reservation ID available. Do not leave a vehicle unattended in the barrier lane or attempt to enter through the pedestrian gate.

3. Booking issues and alternatives

No accessible space available

Do not reserve a standard or van space on the assumption that a transfer aisle will be provided. Contact support to discuss another facility or time. A different space is suitable only if it meets the customer's stated access needs.

Assigned space blocked

Wait safely and report the obstruction through the intercom. Support may offer an equivalent accessible space with customer agreement. If a suitable replacement cannot be supplied, refund the unused parking period under the operator-cancellation policy.

Charging and accessible parking

Accessible spaces do not have charging sockets. Electric spaces do not have dedicated accessible transfer aisles. The current mock sites do not offer a combined accessible charging space; discuss requirements with support before making a reservation.
