Vehicle size rules

Version 1.0 | Effective November 1-30, 2026 | Fictional test content

1. Select the correct space

Standard spaces

Standard spaces are numbered 001-006 at each facility. Maximum vehicle dimensions are 5.0 m long, 2.0 m wide and 2.0 m high. Passenger cars and small SUVs are accepted only when their actual dimensions fit all three limits.

Electric spaces

Electric spaces are numbered 007-008. The same 5.0 m length, 2.0 m width and 2.0 m height limits apply. Reserve this type for a plug-in vehicle using the charger. A large electric van must not use an electric space if it exceeds these limits.

Measurements

Measure width including mirrors and height including roof racks, boxes, aerial fixtures and carried loads. Manufacturer dimensions without attachments are insufficient for a loaded vehicle. A reservation does not override a dimensional limit.

Vehicle size rules

Version 1.0 | Effective November 1-30, 2026 | Fictional test content

2. Accessible spaces and vans

Accessible spaces

Spaces 009-010 allow up to 5.0 m length, 2.1 m width and 2.0 m height. A valid accessible parking permit must be displayed. Keep the transfer aisle empty. These spaces provide extra side access, not extra height clearance.

Van spaces

Spaces 011-012 allow up to 6.0 m length, 2.2 m width and 2.8 m height. Small commercial vans are permitted within these limits. Van spaces do not have charging sockets or a dedicated wheelchair transfer aisle.

Mass and excluded vehicles

All types have a maximum gross vehicle mass of 3,500 kg. Trailers, caravans, coaches, buses and articulated vehicles are excluded even if unladen. Motorcycles may reserve a standard space at the standard hourly rate; only one motor vehicle may occupy a reserved space.

3. Checks and practical examples

Before booking

Check the complete vehicle dimensions and gross mass, then select the matching space type. If no listed type fits, do not book. Contact help@northgate.example if a measurement or access need is unclear.

Examples

A 4.8 m long car that is 1.95 m wide and 1.8 m high fits a standard space. A 5.5 m long van that is 2.1 m wide and 2.5 m high requires a van space. A 2.9 m high van is not accepted at any Northgate facility.

Arrival mismatch

If the arriving vehicle exceeds its booked limits, remain outside the entrance and contact support. A change to a suitable space requires availability and payment of any price difference. If the customer cancels instead, the normal cancellation timing rules apply.
